

Translation

Bloomz translates your communication to the recipient's preferred language using one-click or automatic translation technology. Bloomz users can select from a list of 109 languages available!

1. All Communication

Bloomz translates emergency alerts, posts, announcements, messages and more, all into the recipient's preferred language.

2. No set up required

Every Bloomz user can select their preferred language at account creation and modify it at any time. Users can select from 109 languages available in Bloomz.

You can also easily import your members' language from an SIS or via file import (see below)

3. Automatic translation

When selecting your preferred language, you can also opt to receive all communication automatically translated, so you don't have to click every time.

The image shows a comparison between an original English post and its Spanish translation. On the left, a post by 'Chaks A' (Principal) is shown with the subject 'Food Pick Up/Mentorship Opportunity Parents,' and the body text: 'Food distribution will change next week. Food will be available for pick up on Monday, Wednesday and Friday from 11am to 1pm. A flyer is attached below.' Below the text are three PDF attachments: 'New Meals Nov 2nd.pdf', 'Mentor Program Grades 5-8.pdf', and 'Oct 29th Open House.pdf'. At the bottom, there are engagement metrics: 1 Like, 0 Comments, and 516 Viewed. On the right, the same post is shown in Spanish, with the subject 'Oportunidad de recogida de alimentos / Mentorship Padres,' and the body text: 'La distribución de alimentos cambiará la próxima semana. La comida estará disponible para recoger los lunes, miércoles y viernes de 11 a. M. A 1 p. M. Se adjunta un folleto a continuación.' Below the text are the same three PDF attachments. At the bottom, there are engagement metrics: 1 Like, 0 Comments, and 516 Viewed. A green arrow points from the English 'Read More' link to the Spanish 'Read More' link, indicating the automatic translation feature.

4. All notifications, all modalities

Everything you send from Bloomz is translated in all its modalities. Whether it's email, SMS text, auto-voice or in-app, all notifications are automatically translated to your recipients' preferred language.

5. Easily import members' languages

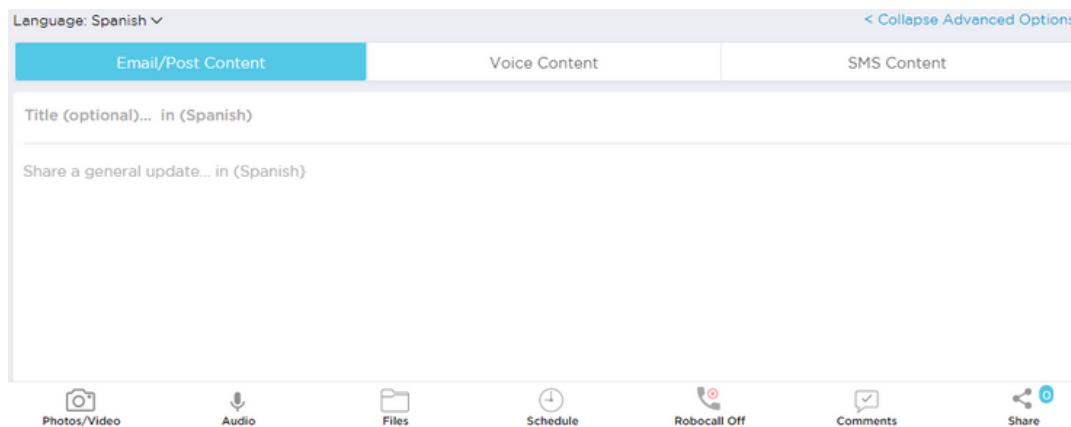

You can easily import your community member's languages through CSV file or via one of Bloomz' SIS integrations, to ensure full equity of access to all of your communications on day one.

6. Language customization functionality

Bloomz' post, announcement and alert functionalities come with handy functionality that automatically translates your message to the recipient's preferred language. And that's only the beginning.

Bloomz allows you to customize the message in any of the languages you choose to ensure your communication comes across the way you want it. You can customize the in-app text, the audio message or the SMS Text.

Recipients can always click to see the original untranslated message too.
